Information about Open House

Open House is aimed at people facing long-term and life-threatening illnesses, their loved ones, carers, or those coping with bereavement.

The drop-in sessions offer the chance to meet others facing similar situations in a comfortable and relaxing space (as well as tea, coffee and biscuits!). Open House is an opportunity for people to get advice, information and peer support, with the Hospice on hand if needed.

There is no need to book and family members, friends and carers are welcome.

Hospice care is not just about a building, but about offering support where people need and want it.
